

PLURIGIN ®

10 VAGINAL OVULES

Composition

An ovule contains : Hydrolyzed Collagen, Equisetum arvense extract glycolic, Poliesametenbiguanide (PHMB), Lactic Acid, Glycerin, Purified Water.

Therapeutic Category

Medical device for vaginal administration.

Directions

Adjuvant treatment in inflammatory affections, atrophic and dystrophic of the vaginal mucosa, such as cervicitis and ectropion. For its humectant action, Plurigin ovules are indicated after physical treatment (DTC, Laser therapy, cryotherapy) or in cases of vaginal dryness in post-menopausal women, even in the presence of oozing. Plurigin ovules, thanks to the content in gelatin (collagen hydrolyzate) and extract of Equisetum arvense, creates the conditions to favor the processes of healing and re-epithelialization, so the PHMB and lactic acid allow the restoration of physiological vaginal PH counteracting the proliferation of pathogens.

Dose , mode and time of administration

Place an ovule in the evening. Take an ovule from the blister, separate the two flaps of the package, remove the ovule and insert deeply into the vagina.

Precautions

All of the operations must be carried out with care and avoid compressing the ovules. The product that showcased an excessive softness, resulting from exposure to a heat source, does not lose its characteristics; however, we recommend placing the ovules in the refrigerator for as long as necessary to reach the desired consistency .

Warnings

The product should only be administered by the vaginal route. In clinical trials, the product proves not to be sensitizing. In the event of adverse reactions discontinue use of the product and consult your doctor.

Keep out of reach of children.

Do not use the product after the expiration date. Keep the product away from sources of heat, at a temperature below 25 ° C. After use, do not dispose of the container environment.

Contraindications

Known hypersensitivity to product components. Use in pregnancy or for long periods should be done under medical supervision.

Side effects

There are no known side effects.

Package Contents

10 ova from 2.9 g .
